

FOGAM3.1 ReadMe – Oct2022

Filed Of Glory Ancient and Medieval rules are now available to download for free.
(Not all files are required – Read the notes before downloading).

Updates to documents - October 2022

➤ **Book2 lists are now available to download.**

Main Rules – Page 15 (page 7 for the no-pictures version) ... added the following to match the V3.0 rules.

- **Elite** battle groups may re-roll 1's and 2's
- **Superior** battle groups may re-roll 1's
- **Poor** battle groups **MUST** re-roll 1's

Main Rules – Page74 (page 43 for the no-pictures version) ... changed 1st and 5th bullets to match the V3.0 rules.

- The supporters must be medium or light foot armed with bow, **bow***, longbow, crossbow or firearm (but not bow*).
- Irrespective of their weaponry, support shooters get 1 dice per supporting base. **Medium Foot with Bow***, and all Light Foot lose 1 dice per 2 as normal, so get 1 dice per 2 supporting bases, rounded up.

Main Rules – Page91 (page 52 for the no-pictures version) ... 3rd sentence: changed to match the V3.0 rules:

If a battle group must take a cohesion test as well as a **death roll**, **the death roll is always taken before the cohesion test is resolved**. (This means that you can roll the dice together, and that base losses that will result from the **death roll** may affect the cohesion test modifiers).

Main Rules – Page135 (page 78 for the no-pictures version) ... Full Turn Sequence – Shooting Phase – 1st entry - changed to match the V3.0 rules (and page 91 as described above):

“Resolve all shooting – **both sides shoot**. **Resolve death rolls.. then post-shooting CTs.**”

List Book1 – Hittite list – Syro-Canaanite chariots – “Points Per Base” – REPALCE “**14**” with “**13**”.
